

[Battle Skin Panic] Instruction manual

● Game Details

" Battle Skin Panic" is a game where you alternate between adventure game and card battle modes to achieve their ultimate objective. Also, by clearing the game, a secret extra mode will be unlocked.

● Adventure mode

By selecting icons you can talk to characters and move from place to place to investigate a mysterious conspiracy.

■ Commands used in adventure mode

- [MOVE] Move to another location.
- [LOOK] Look around.
- [SAVE] Save the current state.
- [TALK] Talk to people in the current location.

● Card Battle Mode

Battles are carried out by you selecting one card from your hand, and putting it on the field. When you use a card, it is replenished, so that you always have 5 cards. The enemy side is controlled by the computer.

■ Parameters displayed during battle

[Hitpoint] The character's health is displayed. When it reaches 0, the character loses.

[Shame] The degree of embarrassment of the character.

If this number exceeds the pre-set limit, the combatant is disabled.

The “undress” action raises this number.

[Attack] Attack power. It is increased by the “undress” action.

[Defence] Defence power. It is lowered by the “undress” action.

■ Type of card used

[Attack card]
Attack the enemy.

[Defence card]
Raise your own defences.

[Recovery card]
Recovers some hit-points.

[Full Heal card]
Restore hit-points to maximum.

[Shame card]

Increases the opponent's shame parameter.

May have no effect.

[Undress card]

Removes a layer of clothes and increases attack.

However, defence goes down and shame goes up.

[Shameless card]

Lower your own shame parameters.

[JOKER]

A secret action is carried out.

What happens depends on the situation.
